# YOUTH BEHAVIORAL STRATEGIES WORKSHOP

Join us to learn more about the PAX Tools social emotional learning resources for children in Washington County!

**Who is invited:** PAX Tools is designed for use at home or in the community by adults such as parents, caregivers, youth program providers and other caring adults who support children and youth.

**What will we do:** PAX Tools is a trauma-informed program that extends nurturing environments beyond the classroom, empowering adults throughout the community to improve young people's behavior and relationships with the use of evidence-based strategies.

At this 2.5 -hour event, you will:

- Receive an introduction training to PAX Tools
- Receive resources necessary to incorporate this into your daily work with children.
- Be invited to sign up for a PAX Community Educator training
  - As a PAX Community Educator, you will be a community leader in PAX Tools, certified to present and support the implementation of PAX Tools strategies for use at home and in the community.

**Why should I attend:** Social emotional learning is a key part of childhood development. PAX Tools are simple evidence-based strategies created to help improve children's self-control and emotional self-regulation skills.
